Catalog of

Gladiolus

Season of
1937

LOUIS R. FISCHER

4824 Penn Ave. So.
MINNEAPOLIS, MINN.

A Message of Introduction

MY PURPOSE in the Gladiolus business is to present a select list of the finest varieties it is possible to collect from all parts of the world and to offer bulbs for sale that will measure up to the entire satisfaction of my customers. From the many repeat orders and fine letters received I am led to believe that I am accomplishing my aim. I want to thank my friends for the interest shown in letting me know the fine results obtained from my stock.

Don't be misled to believe that bulbs offered at cheaper prices are just as good, as it naturally cost more money to carefully grow and handle bulbs in the right manner. A few cents more may mean the difference between a satisfactory Glad garden and one that is a great disappointment.

Every precaution is taken to grow the finest bulbs possible. Our soil is well adapted for this purpose and we are equipped to irrigate the entire field when necessary. No expense is spared for spraying or other treatment to insure disease and insect free stock. We invite your trial order and will guarantee satisfaction.

Winnings at the Shows

This past summer we exhibited in three shows receiving many major awards. The first was the Minnesota Gladiolus Society Show held at White Bear Lake. This proved to be the largest and best show the society has ever had and there was a great deal of competition among the exhibitors. We were fortunate to again win the Sweepstakes Medal in the open class, the third consecutive year having won this prize. The Colonial Gardens Challenge Trophy, offered to the winner of the most points in the section for artistic arrangements, was won for the second consecutive year.

The first International Horticultural Exposition held in Chicago was a marvelous spectacle to witness and we were pleased on having been a charter exhibitor. We placed second in total points for sweepstakes in the commercial section, besides having won a Championship award.

1936 Awards

MINNESOTA GLADIOLUS SHOW

Sweepstakes Medal, open class (third consecutive year).

Colonial Gardens Challenge Trophy (second consecutive year).

Eleven 1st, nine 2nd and five 3rd prize ribbons.

INTERNATIONAL HORTICULTURAL EXPOSITION (Chicago)

Second in total points for Sweepstakes.

Champion Ribbon (Vase of 6 spikes, Decorative variety).

Eight 1st, five 2nd and five 3rd prize ribbons.

MINNESOTA STATE FAIR (Largest Fair in the U. S.)

Champion Ribbon (Vase of 3 spikes, Exhibition variety).

Best Seedling.

Nine 1st, eight 2nd and four 3rd prize ribbons.

Rambling Remarks

THESE random notes, based on my own observations, are offered with the idea that they will be of interest to the reader and also an aid in the selection of varieties.

A great improvement has been made in the white class the past few years with the introduction of such varieties as STAR OF BETHLEHEM and MAID OF ORLEANS. The former is perhaps the most outstanding, although the latter is an excellent cut flower variety. BOB WHITE is a strong growing white with a small blotch. SOLVEIG may be the most

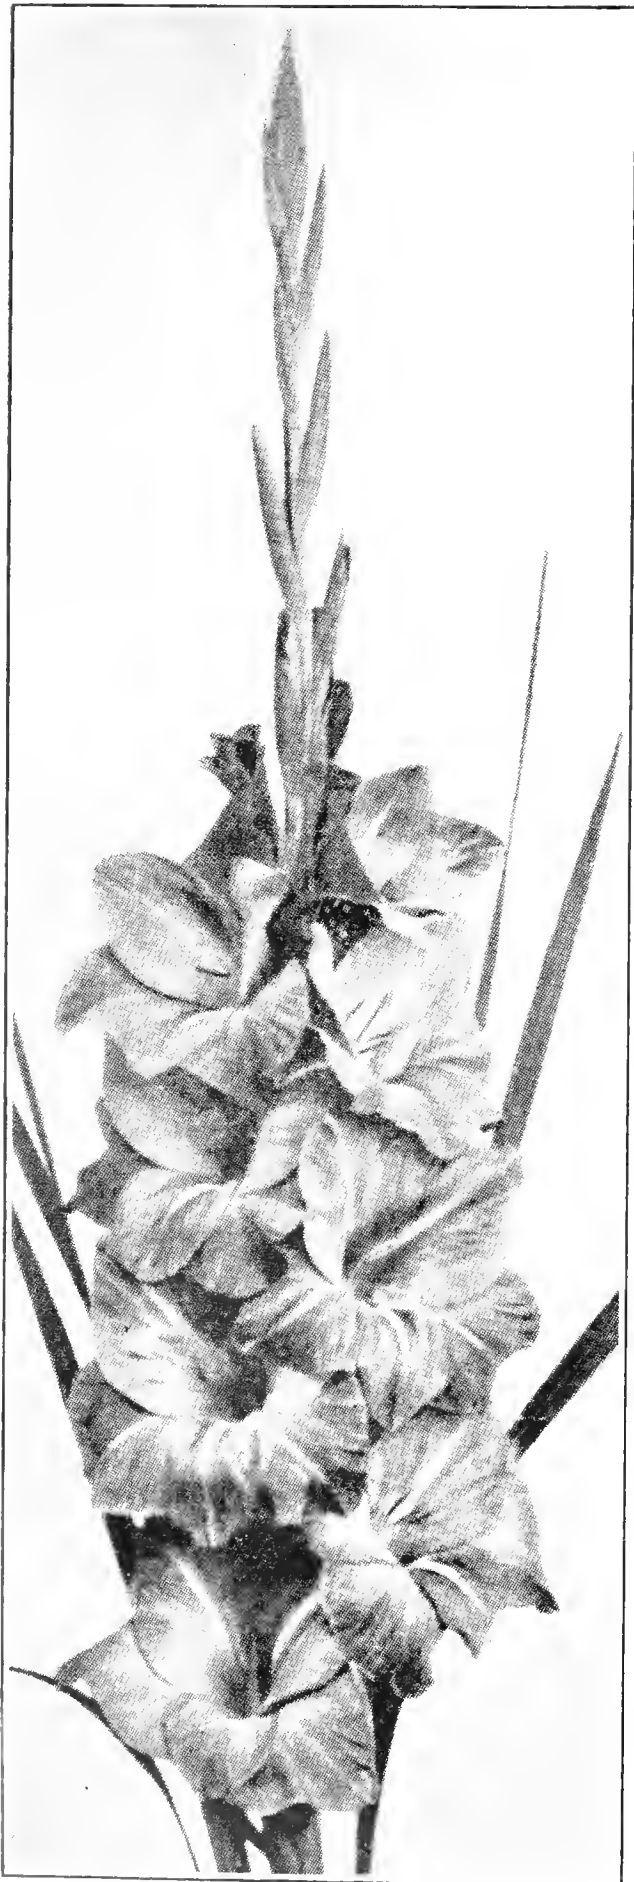

beautiful but is slightly temperamental at times. Even so it is worth trying. Among the newer ones MAUNGA gives promise as being one of the best whites. It is a giant pure white and should be a winner at the shows. So will HEILIGTUM which makes a tall, well proportioned spike. The small decorative type offers WHITE BUTTERFLY, an artistic flower for cutting, and MILADY IMOGENE which opens 8 florets in perfect placement.

We have not found the ideal yellow Glad but GOLDEN CHIMES and GATE OF HEAVEN are very fine. The first is a light yellow and the latter a deep yellow with tendencies to produce short stems. Both have large well shaped florets. GOLDEN DREAM is still considered good. GOLDEN POPPY and JONQUIL both have deep rich color with medium size florets. I have not bloomed GOLDEN GODDESS but it may be the ideal yellow.

The largest selection of Glads comes from the pink class. PICARDY and MILDRED LOUISE are the two most outstanding salmon-pinks, with PICARDY in the lead. In pure pink I would put PHYLLIS McQUISTON at the top of the list with DEBONAIR and SONATINE following close behind. If NEW ERA continues to perform as it did this past season, I would say it is one of the best introductions. Other good pinks are CANZONETTA and MILLIE PARKS. I have not bloomed the latter but it is claimed to be an improved D. H. HAY. BETTY CO-ED and SWEETHEART are two decorative varieties that every one should like. ALAYNE is a rose pink with a fine proportioned spike. REVERIE and ROSEMARIE PFITZER are both blush pink and exceedingly beautiful.

MINUET is still a leader among the lavenders. MISS MARION is an earlier bloomer and will fill a much needed place. The color is also different, being a mauve lavender. If you like a pink lavender, try EARLY MELODY. Its long stems make it a good cut flower variety. KING ARTHUR has the most beautifully formed florets and the color is fine. Pfitzer's newest lavender is ISOLA BELLA and I believe it is going to be a good one.

Among the blue and violet Glads, BLUE ADMIRAL stands out as one of the best introductions in several years. It has good color and a tall spike. From the same originator and very similar to BLUE ADMIRAL, are VIENNA

RED GIANT

WOODS and ROBERT BURNS. The first has larger florets and the latter a taller spike. BLAUE SCHONHEIT looks like another good blue from Pfitzer. MILFORD makes a fine spike but the florets are not especially large. MAX REGER is still the clearest color. If PELEGRINA had a better stem it would be hard to beat. It is one of the darkest in color.

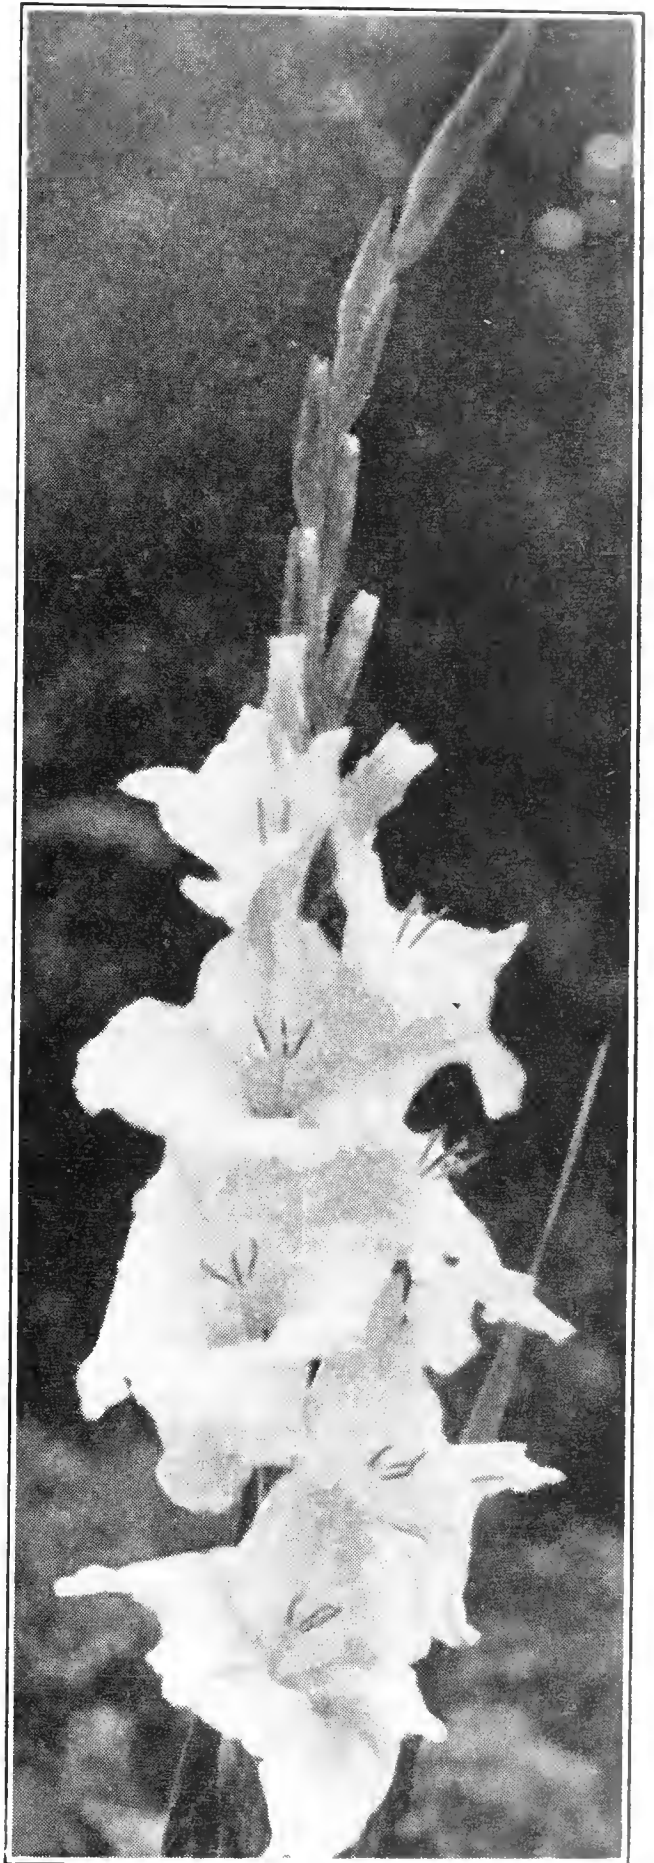

Among the reds BILL SOWDEN and COMMANDER KOEHL still rank very high. Similar to the latter is ALLEMANIA but more scarlet in color. ST. LAWRENCE and FLAMING METEOR are in my estimation very outstanding. RED ADMIRAL looks better every year and although not well known it is one of the best. DEL RAY is a fine medium red with a white throat. The new Pfitzer variety, NINTH SYMPHONY, offers us a brilliant light red with a silvery sheen. I predict a great future for REWI FALLU after seeing it bloom only one year and unless I am mistaken it will prove to be one of the very best introductions. TIP TOP is good but the stem may be a little weak. BEACON AND REGENT should not be overlooked.

LA FIESTA and BRIGHTSIDE are welcome additions to the orange group. BETTY NUTHALL and LA PALOMA are still popular. TANGERINE is a decorative deep orange. Very fascinating and unusual is the miniature variety ORANGE DELIGHT. BIT O' HEAVEN looks very promising.

Among the giants we recommend RED GIANT, a rose red, TAKINA, a peculiar shade of light rosaline purple, and MISS NEW ZEALAND, a salmon-pink with deeper blotch. SMILING MAESTRO can be classed with the giants as it has performed so in my garden. The color is orange salmon.

I would like to emphasize the beauty of WASAGA as I think it is one of the most beautiful glads grown. The color is a clear glowing buff with a waxy sheen. It makes a fine spike. SHIRLEY TEMPLE is the best cream colored Glad ever introduced. I predict a great future for it.

BAGDAD and MOTHER MACHREE are two excellent smoky varieties. MAY DAVIDSON and ROSE LADY are worth trying if you like smoky colors. DOROTHY DOW appears to be a much improved Emile Aubrun.

SOLVEIG

Listed below are the prize winners I exhibited at the International Horticultural Show. (Special price for the entire collection listed on page 10.)

Star of Bethlehem
Solveig
Wasaga
Blue Admiral
Lady Dainty
Orange Delight
Milady Imogene

Phyllis McQuiston
Smiling Maestro
Gate of Heaven
Bagdad
Amador
La Paloma
Picardy

Early Melody
Debonair
Commander Koehl
Bob White
Betty Co-ed
Red Admiral
Early Melody

Miss Marion

THIS outstanding new Gladiolus will undoubtedly become very popular. The color is a very distinctive shade of mauve lavender that is not seen in any other Glad. A soft cream throat further enhances its beauty. When sufficient stock is available at lower prices it will become one of the leading cut flower varieties.

Miss Marion is a very vigorous growing Gladiolus, producing a sturdy plant with rich green foliage. The spike is tall, having 22 to 24 buds. It is a decorative type of flower that will open 8 to 10 florets at once and always in perfect placement. The substance is good and the florets will not burn or fleck. We have yet to see a crooked spike in hot weather and last summer was a very severe test. It should be valuable for breeders because of the number of buds to the spike and the fine growing characteristics.

It is an excellent producer of bulblets and they germinate very easily. Miss Marion bulbs are the soundest and cleanest of any variety I know. Good early lavender Glads are scarce, so it will pay commercial growers to work up a stock.

After a season's trial on the west coast, Mr. John T. Majeski of Redwood Nurseries says—*"Miss Marion did fine and I consider it one of the best lavenders. It should give Minuet a good run. I am glad to find it so much earlier than Minuet."*

	Large	Medium	Small	Bulblets
Per 1	\$ 3.00	\$ 2.00	\$1.00	\$.40
Per 10	24.00	16.00	8.00	2.40

New and Recent Introductions

REWI FALLU (Fallu) Deep blood red. 7 or more enormous florets open at a time on a tall spike. Finest red introduced for several years. This with New Era and Shirley Temple were the best new glads I had seen the past season. (Large \$10.00 each; Medium \$7.50 each; Small \$5.00 each; Bulblets \$1.00 each, 10 for \$9.00.)

NEW ERA (Ellis-Maj.) Eosine pink blended with La France pink. Soft cream throat. Heavily ruffled and frilled. 8 to 10 open. Good placement and always straight. A most beautiful lustrous pure pink glad. Very outstanding. (Large \$8.00 each; Medium \$6.00 each; Small \$4.00 each; Bulblets 60 cents each, 10 for \$4.80.)

FRALANCE (Burns) La France pink with a cream blotch. Recommended as very fine, but I have not had it bloom in my garden. (Large \$10.00 each; Medium \$7.50 each; Small \$5.00 each; Bulblets \$1.00 each.)

MILLIE PARKS (Burns) Light salmon to flesh pink blending to yellow throat. Edges flaked rose. Beautiful shaped floret and spike. 8 open. Considered an improved D. A. Hay. (Bulblets 50 cents each.)

SCARLET CANNA (Burns) Scarlet, deepening to scarlet red on outer edges. Small central line of cream on lower petals. Just like a scarlet Canna, hence the name. (Large \$7.50 each; Medium \$5.00 each; Small \$3.00 each; Bulblets \$1.00 each.)

SHIRLEY TEMPLE (Pruitt) Immense heavily ruffled cream with cream yellow throat. Heavy substance. A magnificent variety that you should have. (Large \$10.00 each; Medium \$7.50 each; Small \$5.00 each; Bulblets \$1.00 each.)

BLAUE SCHONHEIT (Pfitzer) Light blue with edges of petals overlaid violet blue. Large florets with 6 to 8 open at a time. Tall, strong grower. Very fine. (Large \$4.00 each; Medium \$2.50 each; Small \$1.50 each; Bulblets 25 cents each, 10 for \$2.00.)

GRUNES LICHT (Pfitzer) Milky white overlaid with greenish gloss. Well formed florets. (Small \$1.50 each; Bulblets 40 cents each.)

HEILIGTUM (Pfitzer) Clear white with greenish throat. Florets of fine form on tall, strong spike. Looks very promising. (Large \$4.00 each; Medium \$2.50 each; Small \$1.50 each; Bulblets 40 cents each, 10 for \$3.50.)

ISOLA BELLA (Pfitzer) Cattleya pink with a soft hue. Florets wide open and well placed on a tall strong spike. (Large \$3.50 each; Medium \$2.25 each; Small \$1.00 each; Bulblets 30 cents each, 10 for \$2.50.)

NINTH SYMPHONY (Pfitzer) Vivid salmon red with silky sheen. No markings. Wide open florets with 5 to 6 open. Fine spike. (Large \$2.50 each; Medium \$2.00 each; Small \$1.25 each; Bulblets 20 cents each, 10 for \$1.90.)

ALAYNE (Kinyon) Beautiful new shade of light rose. Straight stem. Never flecks. A. G. S. award of Merit 1935. (Large \$1.60 each; Medium 90 cents each; Small 40 cents each; Bulblets 20 cents each, 10 for \$1.60.)

ROBERT BURNS (Christ) Deep violet with deeper blotch. Fine tall spike. Similar to Blue Admiral in color but perhaps taller and finer spike. (Large \$15.00 each; Medium \$10.00 each; Small \$5.00 each; Bulblets \$1.50 each, 10 for \$12.00.)

RED GIANT (Phillips) Bright cerise or rose red with darker throat. Another giant from Australia. (Large \$4.00 each; Small \$1.50 each; Bulblets 40 cents each.)

For further information and complete prices on the above varieties, see general list.

Orange Delight

“Artistically graceful” and “distinctly different” is the general comment about this unusual Gladiolus. It is a small decorative variety with a charm that is hard to describe. The color is a combination of apricot orange overlaid with bittersweet orange. Lacinated petals add to its beauty. The graceful spike and slender stem make it the ideal flower for artistic arrangement in bowls and vases.

Orange Delight has been a consistent winner at the shows. Major 1936 awards are as follows—

INTERNATIONAL HORTICULTURAL SHOW First prize, amateur class
Grand Champion over all colors
AMERICAN GLADIOLUS SOCIETY SHOW First prize, open class
MINNESOTA GLADIOLUS SOCIETY SHOW First prize, open and amateur classes
MINNESOTA STATE FAIR First prize, open class

We predict a great future for Orange Delight as a cut flower variety for select florist trade. It is a very early bloomer, vigorous grower and good propagator. Growers who are looking for something different to offer their trade should get started with this fine variety. The price is very low considering there is very little stock in existence.

Bulbs (any size), 40c each; \$3.20 per 10.

No bulblets for sale.

Key to Classification

The tabular headings at the top of each page enable you to easily determine the substance, kind of floret, season of bloom and the type of flower of each variety. I have tried to be as accurate as possible in giving this information together with a brief description but please bear in mind that this may be altered somewhat by difference in soil, locality and weather conditions.

SUBSTANCE—This is the thickness of the petals and is indicated by “E” for excellent substance, “G” for good substance and “F” for only fair substance.

FLORET—The type of floret is indicated by “Pl.” for plain petals, “Ruf.” for ruffled petals and “Lac.” for laciniated petals.

SEASON—This is divided into five sections giving the approximate number of days required to bloom from time of planting and is indicated by “E” for early (60-70 days), “EM” for early midseason (70-80 days), and “M” for midseason (80-90 days), “LM” for late midseason (90-100 days), and “L” for late (over 100 days).

TYPE—I am using the type classification as adopted by most Gladiolus Societies which classify gladiolus as to size and to number of florets open at one time. There are three groups which are indicated by “Ex.” for exhibition, “Dec.” for decorative and “Sm.Dec.” for small decorative. Exhibition varieties have very large florets and many florets open at one time. The decorative type is not hampered by demands for extreme size and many open, the florets usually being about four or five inches in diameter. Beauty of form and color are the important features of this type. Some of our finest cut flower varieties come under this class. The small decorative flowers have florets three inches or under, the smaller the better. This new classification gives us a truer and more accurate idea as to the type of flower and the smaller and more decorative varieties are now given their proper recognition at the shows.

Discounts

These discounts apply only when cash is remitted with your order. Please note that you have a choice of either taking the discount in extra bulbs of your selection or deducting the cash from the order.

Extra Bulbs, Your Selection

Cash Discounts

15% on orders from \$ 3.00 to \$10.00	10% on orders from \$ 3.00 to \$10.00
20% on orders from 10.00 to 20.00	15% on orders from 10.00 to 20.00
25% on orders from 20.00 to 40.00	20% on orders from 20.00 to 40.00
30% on orders from 40.00 and up	25% on orders from 40.00 and up

Discounts do not apply on Special Collections.

Terms

Please send cash or 25% deposit; balance before shipment. No orders accepted for less than \$1.50. Transportation charges prepaid. Five bulbs sold at the 10 rate and 25 or more at the 100 rate. Minimum charge for any item, 10c. As the planting and care of all bulbs and plants sold by us are beyond our control we can not be in any way responsible for the results after planting.

Large bulbs are $1\frac{1}{4}$ inches or more in diameter but in most cases will be $1\frac{1}{2}$ to 2 inches. Medium size will be from $\frac{3}{4}$ to $1\frac{1}{4}$ inches and small bulbs from $\frac{1}{4}$ to $\frac{3}{4}$ inch. When there is a figure before the price such as 2-.15 it means 2 bulbs for 15c.

Premium Bulbs

Free bulbs or bulblets given with cash orders are as follows: \$5.00 order—1 bulblet each of Alayne and Isola Bella. \$8.00 order—1 bulblet Robert Burns. \$12.00 order—1 bulblet Canzonetta. \$15.00 order—1 medium bulb of Alayne and 1 bulblet of Robert Burns. \$20.00 order—1 large bulb Miss Marion. \$30.00 order 1 large bulb each of Miss Marion and Alayne.

Prize Winning Collection

International Horticultural Exposition

If you are looking for a collection of Glads that are consistent winners, here is your opportunity to secure them at a greatly reduced cost. All are new and outstanding varieties, several of which are worth from 20c to 40c each.

Every color is well represented, besides the various types. Included are two small decorative varieties, both of which were Grand Champions at Chicago. In fact you could not select a more representative group of fine Glads.

Star of Bethlehem	Phyllis McQuiston
Solveig	Smiling Maestro
